“Design Competition 1+1” - Expansion of Hong Kong Science Museum and the Hong Kong Museum of History, co-organised by the Leisure and Cultural Services Department and the Architectural Services Department, is now calling for entries. Local registered architects are invited to contribute their inspiring ideas and innovative architectural designs to rejuvenate the new Museum Complex and invigorate its neighbourhood, as well as providing a more rewarding learning experience for visitors.

The competition comprises two parts. Part A is the (Old x New) Façade Design Competition which will focus on creative design concepts for the façade of the new Museum Complex. Part B is an (Interactive x Innovative) Open Space Design Competition for the design of a rooftop open space on one of the new buildings which will adopt the theme of an attractive urban space with science elements.

The jury panel will select one winning entry and two merit entries from both parts A and B. In addition to receiving rich prizes, winners may also be given the opportunity to implement the winning concepts in the Hong Kong Science Museum and the Hong Kong Museum of History Expansion Project.

The competition is open to either individual or team participants. The online registration will close on March 19, 2021 at 12 noon. The deadline for submission of entries is April 26 at 1pm.
